about

Atlantic

STOVES & FIRES

“For over a decade, Atlantic has been manufacturing and supplying stoves & fires across Ireland and the UK. Our collection brings together efficiency, design and value for every type of home.”

Atlantic Stoves & Fires was founded with a simple goal: to create reliable, beautiful stoves & fires that feel at home in real homes.

From rural cottages to modern townhouses, our stoves & fires are designed to bring warmth, comfort and clarity to every room they serve.

We combine durable materials like cast iron and steel with thoughtful details that make a difference — large glass screens, smooth handles and clean, balanced lines. Every model is built to perform and certified for efficiency.

Whether it’s a subtle upgrade or the centrepiece of your space, an Atlantic stove is made to last and made to belong.

FREESTANDING STOVES

The Pearl Collection

A Reason to Stay In.

The Pearl range combines timeless design with everyday ease. Crafted from steel and cast iron and available in a range of sizes, each stove is built with quiet confidence — the kind that settles in and stays. From compact cottages to open-plan homes, there's a Pearl to suit your space and pace.

Pearl

Log Boxes Available for:
Pearl 5, Pearl 5 Wide, Pearl 8 & Pearl 10

Product gallery

Whether it's the heart of a busy living room or the backdrop to a quiet evening, every Pearl is made to belong. With wide glass, smooth handles and reliable performance, they offer a steady, satisfying burn — and a reason to stay in.

Pearl 4

The Pearl 4 introduces the range with quiet charm. Designed for smaller rooms and cosy corners, it offers all the craftsmanship and elegance of its larger siblings in a more compact form — proof that less can still feel like more.

Details:

Fuel Type: Multi-fuel

Nominal Output: 4kW

KW Range: 3kW - 5kW

Efficiency: 79.8%

The Shore Collection

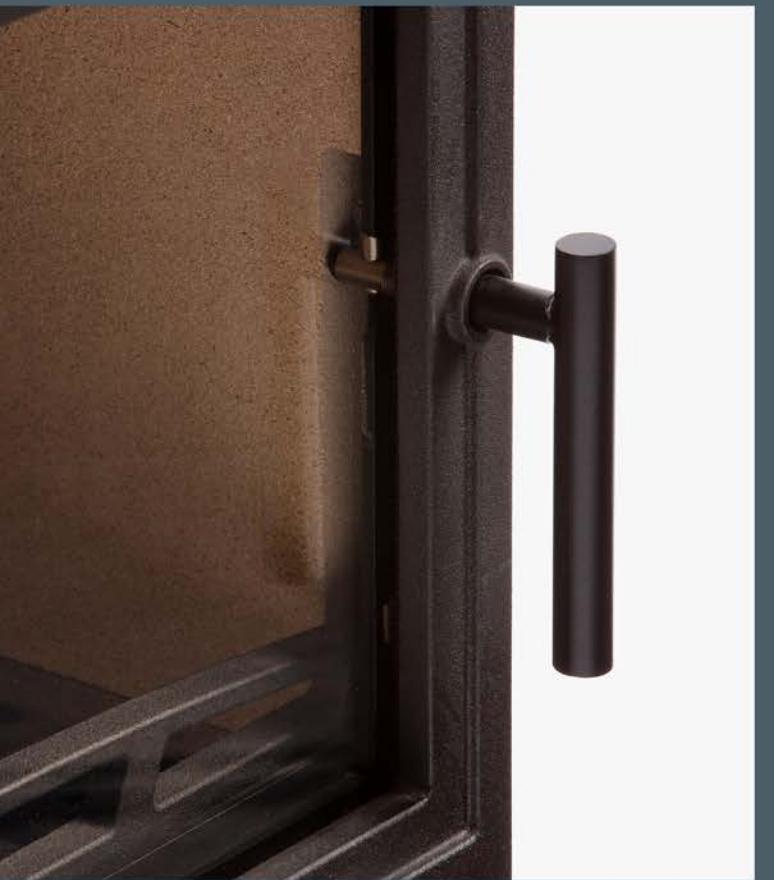

Clean lines,
timeless warmth.

The Shore collection blends everyday utility with a sharp contemporary look. Designed with clean lines and practical proportions, these stoves suit modern homes where space, simplicity and performance matter.

Each model offers dependable heat, low upkeep, and strong efficiency. With wide glass screens, solid steel bodies, and a minimalist finish, Shore stoves keep things simple — just fire, done well.

Shore

Product gallery

Available in two sizes, the Shore stoves are engineered for efficiency and ease. Both models feature clean-lined silhouettes, large viewing glass for a clear flame picture and discreet air controls for precise burn management. Built from high-grade steel and finished in matte black, they're Eco Design Ready, DEFRA exempt

Shore 5

The Shore 5 offers a 5kW nominal output, ideal for small to medium spaces. It features a wide glass front for an uninterrupted view of the fire and discreet controls for clean, efficient burning.

With a high-efficiency rating and clean-lined finish, it's a practical and stylish choice.

Details:

Fuel Type: Multi-fuel

Nominal Output: 5kW

KW Range: 4kW - 6kW

Efficiency: 78.4%

Flue Size: 125mm

Eco Design Ready: Yes

DEFRA Exempt: Yes

Energy Rating: A

Warranty: 5 Years

External Air Compatible: Yes

Approx. Dimensions (mm):

Height: 578.5 | Width: 400| Depth: 314

See page 64 for full technical drawings.

Shore 7

With a nominal output of 8kW and a wide firebox, the Shore 8 is built for larger spaces and open-plan living. Its clean, minimal form is matched by robust performance and easy control.

Like the Shore 5, it features a large viewing window and user-friendly air controls.

Details:

Fuel Type: Multi-fuel

Nominal Output: 7kW

KW Range: 6kW - 8kW

Efficiency: 77.9%

Flue Size: 125mm

Eco Design Ready: Yes

DEFRA Exempt: Yes

The Coral

17

The Coral brings the comfort of tradition into the present day. Its cast-iron body, compact size, and timeless form make it a natural fit for classic spaces — whether it's a rural retreat or a town home with heart. Built to last, easy to live with and endlessly reliable, the Coral is a stove that simply belongs.

Crafted to captivate.

Coral

Product gallery

Fully cast in iron and Eco Design Ready, the Coral is a multi-fuel stove with impressive 83% efficiency and an A+ energy rating.

Its defining feature is the ornate moulding — subtle curves, decorative lines and a refined door profile that nods to traditional craftsmanship. A stove that brings warmth, both in function and in form.

Coral

Full of heritage charm and everyday purpose, the Coral is a 5kW multi-fuel stove built entirely from cast iron.

A+ rated and Eco Design Ready, it combines exceptional efficiency with enduring appeal. It may be compact, but it delivers a strong, steady heat

Details:

Fuel Type: Multi-fuel

Nominal Output: 5kW

KW Range: 4kW - 6kW

Efficiency: 83%

Flue Size: 125mm

Eco Design Ready: Yes

DEFRA Exempt: Yes

Energy Rating: A+

Warranty: 5 Years

Approx. Dimensions (mm):

Height: 580 | Width: 440 | Depth: 330

See page 64 for full technical drawings.

Comfort & Character

Combining traditional cast-iron construction with exceptional performance, the Lough collection is built for those who expect more from their stove.

Aesthetically classic but technically advanced, each unit in the range delivers powerful, consistent heat, with a high-efficiency rating of up to 84.7%.

The Lough brings comfort, control, and character. It's built to last, with heavy-duty materials and confident form.

The Lough Collection

Lough

Product gallery

The Lough's visual strength lies in its cast-iron build, crisp detailing and sculptural silhouette. Its bold, architectural form makes it a standout feature in both period interiors and contemporary spaces, offering a timeless presence that feels grounded and intentional.

Lough

The Lough combines timeless styling with serious performance. With a nominal output of 7.5kW and an efficiency of 84.7%, it delivers powerful, consistent heat in a surprisingly compact design.

Available in matt black, black enamel, and ivory enamel, with each finish adding its own touch of character.

Details:

Fuel Type: Multi-fuel

Nominal Output: 7.5kW

KW Range: 6.5kW - 8.5kW

Efficiency: 84.7%

Flue Size: 125mm

Eco Design Ready: Yes

DEFRA Exempt: Yes

Energy Rating: A+

Warranty: 5 Years

Approx. Dimensions (mm):

Height: 589 | Width: 455.5 | Depth: 438

See page 65 for full technical drawings.

A finish for every setting.

Matt Black

Black Enamel

Ivory Enamel

The Lough is available in three distinctive styles:

- Matt Black, understated and versatile for any interior
- Gloss Black Enamel, bold and reflective with a polished look
- Ivory Enamel, soft, bright and full of classic charm

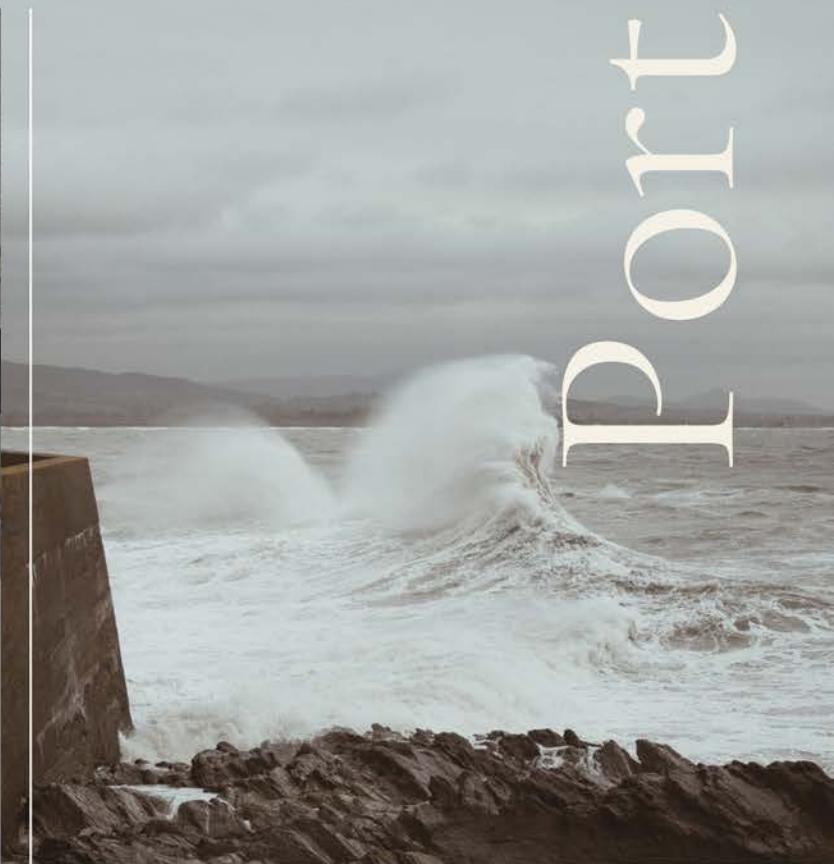

All three finishes offer the same trusted performance — just with your choice of personality.

Built to heat large rooms with ease, the Port combines traditional charm with modern performance. Its cast-iron body and wide stance give it a grounded, timeless look — while the 10kW output ensures it's ready for anything the Irish winter brings.

Strength, made simple.

Port

Product gallery

Designed for impact, the Port balances high heat output with visual weight. From the broad cast-iron body to the generously sized glass front, every detail is considered to give the stove a confident, grounded feel.

Port

With a powerful 10kW heat output and a flue size of 150mm, the Port is one of the most capable stoves in the Atlantic range.

Whether you're heating a spacious living room, a rural home, or an open-plan space, it offers reliable performance and classic style.

Details:

Fuel Type: Multi-fuel

Nominal Output: 10kW

KW Range: 8kW - 12kW

Efficiency: 79.1%

Flue Size: 150mm

Eco Design Ready: Yes

DEFRA Exempt: Yes

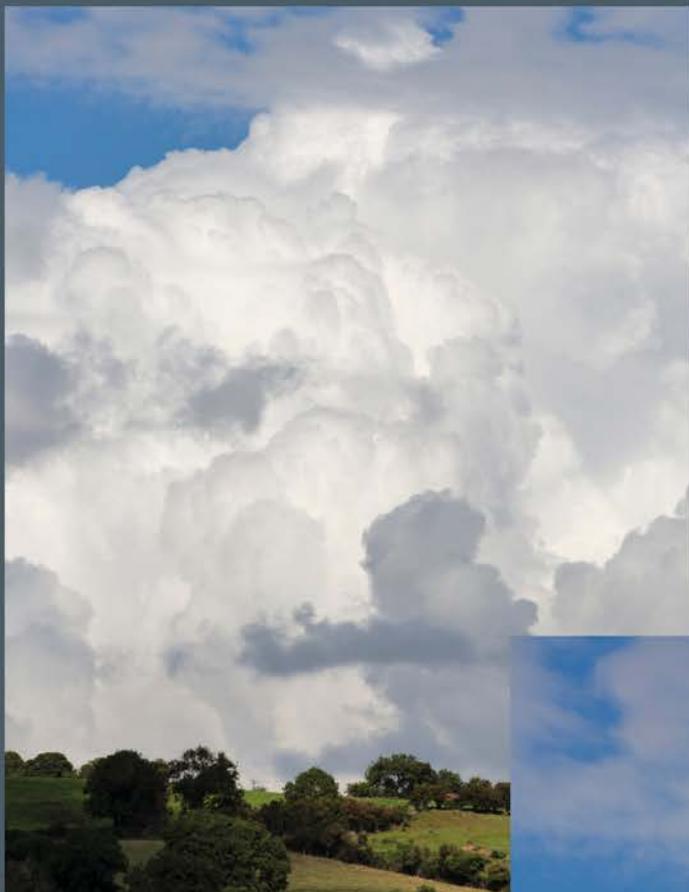

Energy Rating: A+

Warranty: 5 Years

Approx. Dimensions (mm):

Height: 722 | Width: 616 | Depth: 413

See page 65 for full technical drawings.

The Horizon Collection

Sleek & efficient.

Sleek and efficient, the Horizon collection pairs sculptural form with 86.1% performance. With a bold glass front and two contemporary base options, each model is made to elevate modern living spaces.

Choose between the clean Pedestal or the practical Store Stand — both Eco Design Ready, DEFRA exempt, and built from high-quality steel for lasting impact.

Horizon

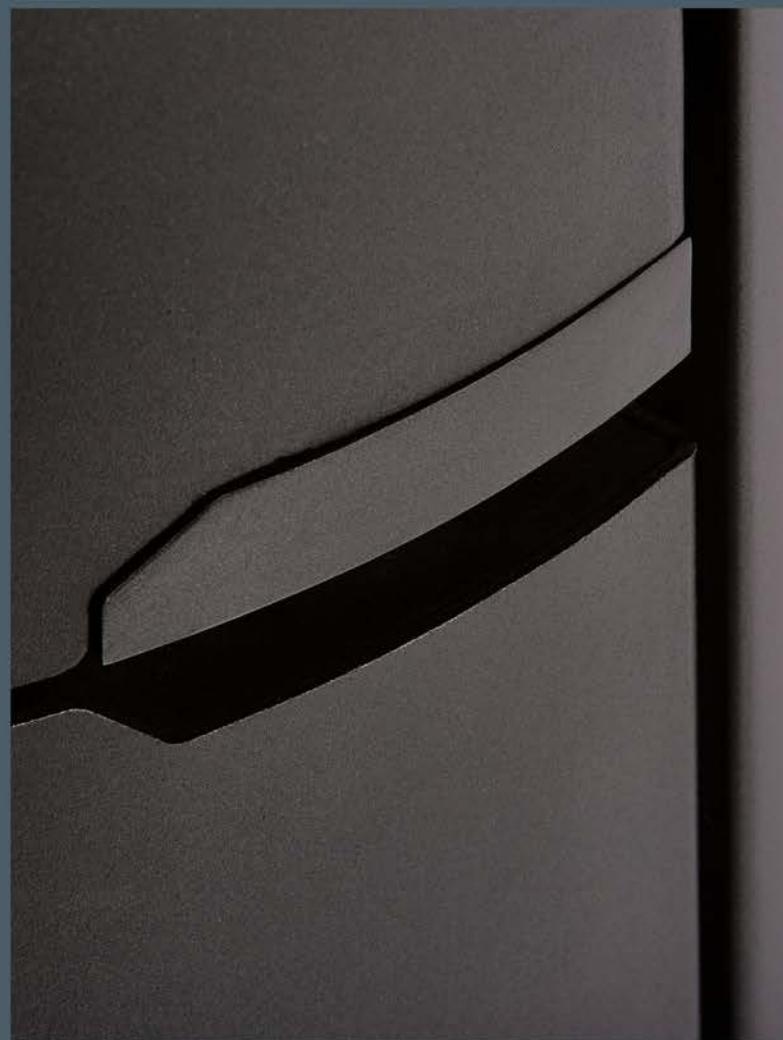

Product gallery

Sculptural and streamlined, the Horizon is designed to make a statement.

With two distinct base options: a clean pedestal or a practical store. This stove anchors the room with its strong presence, tall firebox and expansive glass.

At 86.1% efficiency, it's as practical as it is elegant.

Horizon Pedestal Stand

The Horizon Pedestal offers a minimal, architectural form that elevates the flame and adds lightness to the stove's silhouette. With a 5kW output and best-in-class efficiency, it's ideal for low-energy homes that want high-impact design.

Details:

Fuel Type: Multifuel

Nominal Output: 5kW

KW Range: 4kW - 7kW

Efficiency: 86.1%

Flue Size: 125mm

Eco Design Ready: Yes

DEFRA Exempt: Yes

Energy Rating: A+

Warranty: 5 Years

External Air Compatible: Yes

Approx. Dimensions (mm):

Height: 1000 | Width & Depth: 460

See page 65 for full technical drawings.

Horizon Store Stand

The Horizon Store Stand offers the same outstanding performance as the Pedestal model, with the added practicality of integrated storage. It combines clean lines with useful functionality, making it perfect for stylish, efficient heating.

Details:

Fuel Type: Multifuel

Nominal Output: 5kW

KW Range: 4kW - 7kW

Efficiency: 86.1%

Flue Size: 125mm

Eco Design Ready: Yes

DEFRA Exempt: Yes

Energy Rating: A+

Warranty: 5 Years

External Air Compatible: Yes

Approx. Dimensions (mm):

Height: 1000 | Width & Depth: 460

See page 65 for full technical drawings.

The Oyster Collection

Simplicity at its best.

Made exclusively for burning wood, the Oyster collection offers a more natural way to heat your home. Wood-only stoves are easier to clean, more efficient in everyday use and leave less ash behind — making the Oyster a simpler, cleaner choice for those who want the full experience of a real fire.

Did You Know?

Wood-burning stoves **function best** when logs are placed in a **bed of ash**. It improves airflow, helps the stove **light faster**, and keeps the fire burning more cleanly.

Oyster

Log Boxes Available for:
Oyster 5 & Oyster 8

Product gallery

Finished in sleek black steel and available in three sizes, every model in the range pairs large glass screens with smooth handles and a compact footprint. Whether you're heating a small snug or a larger open-plan room, there's an Oyster to fit — and to bring warmth, glow and ease to your day-to-day routine.

Oyster 4

The Oyster 4 is the most compact in the collection — ideal for snug spaces, narrow fireplaces, or energy-conscious rooms. Despite its size, it still offers the wide glass, smooth lines, and rewarding burn the Oyster range is known for.

Wood-only, A-rated, and Eco Design Ready, it's simple to run, easy to maintain and quietly efficient — everything a small stove should be.

Details:

Fuel Type: Wood

Nominal Output: 4kW

KW Range: 3kW - 5kW

Efficiency: 75.6%

Flue Size: 125mm

Eco Design Ready: Yes

DEFRA Exempt: Yes

Energy Rating: A

Warranty: 5 Years

External Air Compatible: Yes

Log Box Available: No

Approx. Dimensions (mm):

Height: 431 | Width: 370 | Depth: 279

See page 66 for full technical drawings.

Oyster 5

The Oyster 5 is a versatile wood-only stove designed to suit most medium-sized rooms. Its clean design, generous viewing glass, and dependable 5kW output make it a natural fit for both contemporary and traditional homes.

Easy to use, easy to live with — and thanks to its external air compatibility, ideal for modern airtight spaces too.

Details:

Fuel Type: Wood

Nominal Output: 5kW

KW Range: 4kW - 6kW

Efficiency: 78.4%

Flue Size: 125mm

Eco Design Ready: Yes

DEFRA Exempt: Yes

Energy Rating: A

Warranty: 5 Years

External Air Compatible: Yes

Log Box Available: Yes

Approx. Dimensions (mm):

Height: 522 | Width: 410 | Depth: 340

See page 66 for full technical drawings.

Oyster 8

The largest in the Oyster range, the Oyster 8 is designed for bigger rooms — and for those who love the presence of a real fire. Its expansive glass front puts the flame on full display, while the 8kW output delivers dependable heat with quiet ease.

Wood-only, A-rated, and made for lower-maintenance living, it's a natural choice for open-plan homes or larger spaces that deserve a focal point.

Details:

Fuel Type: Wood

Nominal Output: 8kW

KW Range: 7kW - 9kW

Efficiency: 77.9%

Flue Size: 125mm

Eco Design Ready: Yes

DEFRA Exempt: Yes

Energy Rating: A

Warranty: 5 Years

External Air Compatible: Yes

Log Box Available: Yes

Approx. Dimensions (mm):

Height: 553 | Width: 490 | Depth: 330

See page 66 for full technical drawings.

INSERT STOVES

The Bay Collection

37

The Bay 5 is made to fit most standard 16" and 18" fireplace openings — bringing the charm of a traditional hearth, with the efficiency and performance of a modern stove. It's a simple way to transform the space you already have into something warmer, cleaner and more inviting.

Compact. Characterful.

Bay

Product gallery

The Bay 5 offers powerful performance in a space-saving inset format. Its precision controls and convection chamber ensure efficient heat with a crisp, contemporary finish. Ideal for both renovations and new builds.

Matt Black

Ivory Enamel

The Bay 5 is available in three distinct finishes to suit your style:

- Matt Black: understated and modern
- Black Enamel: polished, reflective and bold
- Ivory Enamel: soft, warm and timeless

Black Enamel

Bay 5

Thanks to convection technology, warmth circulates quickly through the room — while its A-rated efficiency and Eco Design credentials ensure it's as responsible as it is reliable. A classic in both form and function.

Details:

Fuel Type: Multi-fuel

Nominal Output: 4.6kW

KW Range: 4kW - 5.5kW

Efficiency: 79.2%

Flue Size: 125mm

Eco Design Ready: Yes

DEFRA Exempt: Yes

Energy Rating: A

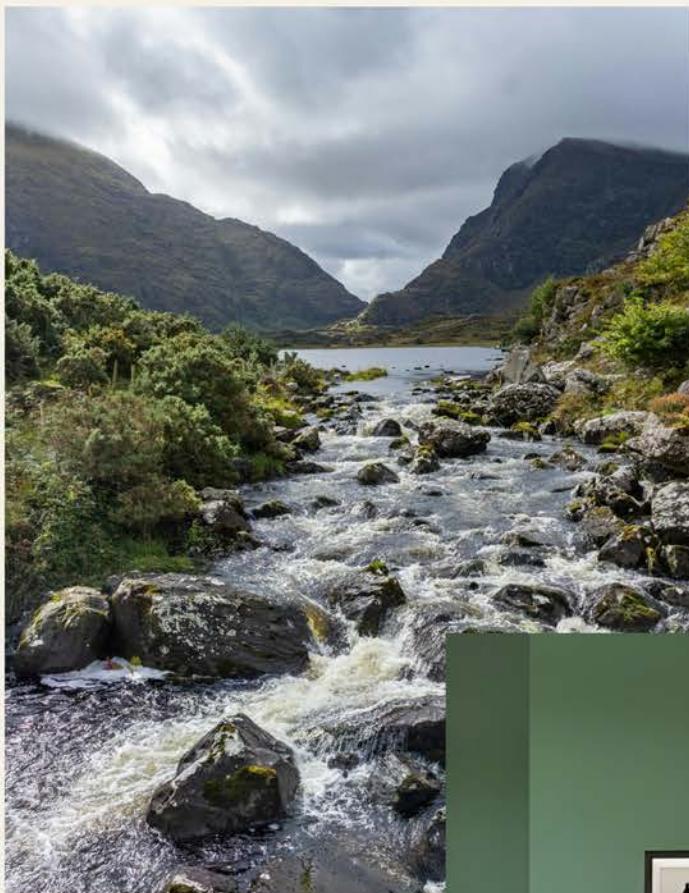

Warranty: 5 Years

Convection Technology: Yes

Approx. Dimensions (mm):

Height: 592 | Width: 503 | Depth: 387

See page 67 for full technical drawings.

The Stream Collection

The Perfect Complement

The Stream 5 is compact, efficient, and made for hearth-based living. It fits most 16" and 18" fireplace openings, making it ideal for upgrading an open fire without losing the atmosphere of a real flame.

Its crisp cast-iron frame and glass front bring timeless style and modern performance. One of the few inset stoves in its class approved for use with a wooden surround*, it offers character, warmth, and confidence in one neat package.

Stream

Product gallery

The Stream 5 delivers reliable 4.6kW output in a compact inset frame. With a streamlined cast-iron body, multi-fuel flexibility and a clear glass front, it offers practical warmth and polished style in smaller rooms.

Suitable for most
wooden surrounds.

Clearance to combustibles: 300mm from the top
and 150mm from the side

Black Enamel

Ivory Enamel

Black Enamel

Stream 5

A compact multi-fuel inset stove designed for everyday homes. High efficiency, low emissions, and a clear glass front make it a smart, space-conscious option — and with CE certification for use with wooden surrounds (when installed to spec), it's a confident choice for traditional hearths.

Details:

Fuel Type: Multi-fuel

Nominal Output: 4.6kW

KW Range: 4kW - 5.5kW

Efficiency: 79.2%

Flue Size: 125mm

Eco Design Ready: Yes

DEFRA Exempt: Yes

Energy Rating: A

Warranty: 5 Years

Approx. Dimensions (mm):

Height: 592 | Width: 520 | Depth: 392

See page 67 for full technical drawings.

The Wave Collection

A clean, modern finish.

Boldly minimal, the Wave pairs crisp geometry with contemporary craftsmanship. Designed for hearth-based living, ideal for those who want the experience of a real flame with a clean, modern finish.

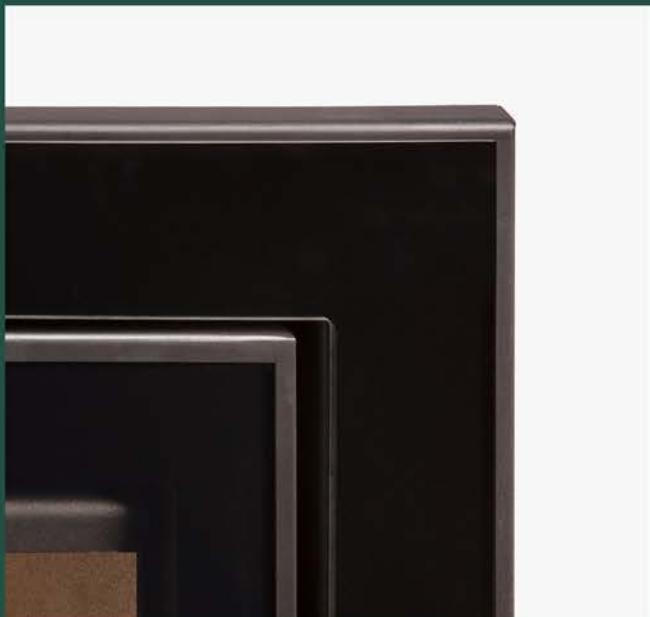

Available in both 3- and 4-sided trims, the Wave can also be raised off the floor for a more elevated view.

Wave

Matt Steel Frame

Glass Frame

Product gallery

The Wave stands out with its clean edges, generous glass front, and exceptional A+ energy rating. With multi-fuel capability, convection-based heating and trim options available in either glass or matt steel, it's engineered for modern homes that value efficiency and style in equal measure.

Wave 8 with 4 sided frame.

Wave 5

A high-efficiency, multi-fuel insert stove with a minimalist aesthetic and wide glass screen. Built to EcoDesign standards with convection technology for enhanced heat distribution.

Details:

Fuel Type: Multi-fuel

Nominal Output: 5kW

KW Range: 4kW - 6kW

Efficiency: 83.7%

Flue Size: 125mm
